

Flange leaking SF₆ gas

Fully encapsulated flange

Belzona SF6-FIX

The Online Solution For SF₆ Leaks

With Belzona SF6-FIX, leaks of sulphur hexafluoride (SF₆) can be quickly and effectively reduced to undetectable levels, resulting in huge environmental and financial savings.

Belzona SF6-FIX is a cold applied, solvent free system made of expertly applied specialist materials that can be applied online and without specialist tools. Plus, this durable system of expertly applied specialist materials can be applied in just one day.

Key Benefits:

- Reduce leaks to undetectable levels
- Rapid installation, short cure times
- Removable for joint access
- Excellent corrosion protection
- Strong and durable solution

BELZONA® Project Reflection

Belzona SF6-FIX

“Our collaborative work with Belzona, using its SF6 leak seal technology, is helping us **reduce SF6 emissions while keeping our critical infrastructure in service.** This means we can keep electricity flowing, while reducing the environmental impacts – a double benefit for consumers.”

Rob Mills, Commercial and Portfolio Manager
